accurascale

Trying Dry January? How About Getting On Our Wagons Instead

Partaking in dry January to detox after the festive excesses? Well, why not climb aboard our wagon packs!

With our recent arrivals of our 21 ton mineral and Coil A steel wagons, as well as the limited remaining PFA wagons (perfect for our DRS Class 37s) or our award winning FNA-D nuclear flask carrier there is plenty to choose from!

Too modern or too big? Check out our cheeky chaldron wagons, which can spawn a whole new micro layout in an industrial setting in itself to help you though those dark January evenings.

Of course, money can also be tight in January, so how about some retail therapy which requires no money down right now, or being able to spread the payments over 6 months at no extra cost? Check out our wagon pre-orders, where you can select what you wish to pre-order and not pay any money until they come into stock later in the year. 16 ton minerals and CDAs have been particularly popular there!

Remember; there is 10% off when you buy two or more of our rolling stock items, including mixing and matching items to give you further great savings. Just keep your pre-orders and your in-stock orders separate as they will not ship until all items have come into stock. Oh, and free UK postage and packaging too, just to make it even sweeter.

Closure of Hattons Model Railways And What It Means For Your Accurascale Warranty and Pre-Orders

accurascale

With the extremely sad news that our friends at Hattons Model Railways are set to close their doors after almost 80 years in business, we would like to take this opportunity to wish all their management and staff, who have been a delight to deal with in our time working together, the very best of luck with their future endeavours.

We would also like to take this opportunity to reassure any Hattons customers who have purchased Accurascale branded models from Hattons that they can contact us directly for any warranty support required. Just contact us regarding the matter via support@accurascale.com email with proof of purchase from Hattons and we will be delighted to help.

If you have an outstanding pre-order for an Accurascale item from Hattons, please see our other retail partners, or send us a proof of purchase of your pre-order if it is sold out on our website and we will allocate your pre-order direct for you to guarantee your allocation. Send your pre-order requirements to sales@accurascale.com

Mark 1 Sub Production Progress

We recently brought you an update on our Mark 1 suburban coaches before Christmas, but we have received further images from the factory to show the continued progress on these rather lovely coaches that we hope will bring you a little bit of cheer on this "Blue Monday"

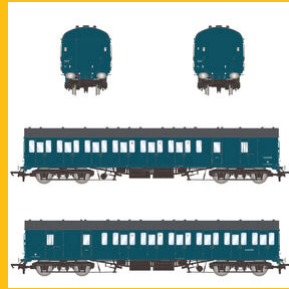

As per our previous update, delivery is on course for Q2 2024!

Place your pre-order today via your local stockist, or below! With 10% off when you order two or more coaches, with free postage and packaging and no money down! Check out what's on offer below and begin planning your rake!

Oggetto: A Look At The First Class 66 Production Samples

accurascale

A Look At The First Class 66 Production Samples

accurascale

Great news! Our hotly anticipated Class 66 locomotives are nearing completion at our factory and they have sent us production samples of the first four models to sign off!

We have asked for a couple of final little tweaks before taking delivery, but nothing that will impact the timeline. They will arrive in stock, as planned in late Q1 of this year. So, that means March!

In for assessment first are two EWS machines, including our "Accurascale Exclusives" model of 66001 as delivered with maroon grilles, one of our "Freds" in the attractive and now iconic Freightliner green and yellow livery, and GBRf machine 66769 in Prostate Cancer UK livery, sales of which has lead us to our £10,000 goal of a donation to this very special cause.

Check out the images below, including the special presentation packaging for 66001 and 66769, and keep an eye out for more "first looks" in the coming weeks as we reveal more locos!

accurascale

accurascale

accurascale

accurascale

accurascale

Tempted? Well, we only have a limited amount of stock remaining, with several liveries and running numbers already sold out. So, check with your local stockist, or browse direct below!

If you had a pre-order with Hattons and you want to keep it, just drop us a line at sales@accurascale.com with your proof of purchase and we will set that up for you too!

**RMWeb/World of Railways Announce
Accurascale Ltd Edition 16 Tonners**

**S Accurascale 16T
scrap wagons**

Great news! Our friends over on RMWeb/World of Railways have commissioned us to produce a limited edition pack of our 16 ton mineral wagons in British Steel marked scrap livery.

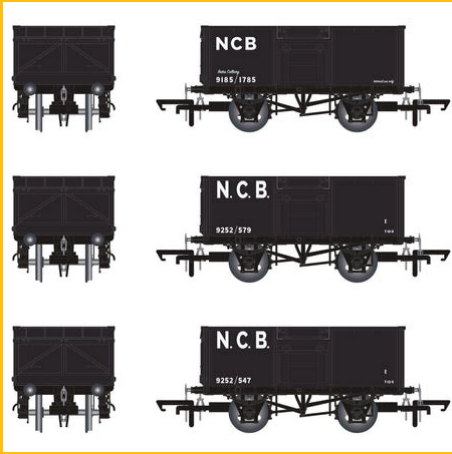

Our set of three British Steel Corporation marked vehicles with patches, local renumbering and weight panels are based on internal use wagons from within South Wales steel sites dating through the 1970s to 1980s.

The pack, which will come in special presentation packaging, will be priced at £74.95 and can be pre-ordered by clicking on the button below!

Models In Our Webstore About To Sell Out

Despite the "doom and gloom" surrounding the hobby at the moment, we can happily report that sales are growing for us and we have seen an uptake in sales of in stock items.

Some of these models are now selling through quickly. So, this could be your last chance to bag them! Perhaps something to put that giftcard you received at Christmas to good use?

Below is our "endangered species" list, so grab one before they go!

accurascale

Welcome to Accurascale's Lifetime Warranty, For Future, Present and Past Models

accurascale

We like to shake the market up as you know, so we have decided to review our warranty window of one year and extend it to an incredible, industry first, of a lifetime manufacturer's warranty on all new, in stock and forthcoming Accurascale models!

But, what about the Accurascale models you already own? Well, we have not forgotten about you either!

So, how about this? We are **EXTENDING** our lifetime manufacturer's warranty to all models ever sold new by us, or new

by our retailers in the past, too!

This covers;

- Locomotives
- Coaches
- Wagons
- Accessories

We really believe in our models, so we will stand over them for life! Should you be considering your next model purchase, you can check out our range, safe in the knowledge that we will have you covered, for life!

See all terms and conditions by [clicking here](#)

Need to contact us about a warranty issue? Email us now by clicking the button below (If you purchased direct from our website, have your order number ready. If you purchased from a retailer please include either a photo of your receipt or order confirmation email in the email)

Oggetto: Shed Heaven, The Accurascale Class 66 - The Final Countdown

accurascale

Shed Heaven; The Accurascale Class 66 Final Countdown!

accurascale

It's been all go here at Accurascale Towers for our new Class 66s, with the last few months being extremely busy getting the various pieces in place before the model's imminent arrival.

So what has been happening behind the scenes? Late last year Fran Burke and Steve Nicholls visited one of our factories to personally check on the 66 project progress. The production team have been working tirelessly to assemble our models with the completion date due before Chinese New Year, where they'll enjoy a well-earned break!

accurascale

Back in the UK, we've seen our pre-production samples go through vigorous testing and even entertaining the crowds at exhibitions like Making Tracks, where our samples have clocked up almost 40 real miles of running. We can't help ourselves, Playing trains is what it's all about!

accurascale

There is a serious side to all this testing. It allows our Class 66 Project Manager Steve Purves to find anything that's been missed or needs a tweak before the final assembly. With his feedback fed to the factory, they go on to produce the final production samples for us to evaluate, these models should be of the same quality as the models you'll receive.

accurascale

Boy, they didn't disappoint! At the beginning of January, the final production samples arrived and as you can see from the images, we're extremely pleased with how these models have turned out. It really makes all the hard work worthwhile.

accurascale

So, now we're happy, what's next? Great news on that front, as the final production samples have been tested and approved we expect them to ship just after CNY by sea. This will mean an expected arrival bang on time for the end of Q1 2024.

accurascale

With limited stocks remaining, especially with our charity fundraiser 66415 for Samaritans, it is worth getting your pre-order in as soon as you can. Pre-order via your local stockist, or below!

21 Ton Mineral Wagons Shifting Fast - Have You Bought Yours Yet?

Our latest wagon arrivals, the 21 Ton Mineral wagon family of MDV and (for the first time in Ready-To-Run formate, the MDW) have been shifting fast since they arrived in stock with us.

With individual lettering and markings, multiple wagon numbers to choose from and a beautifully finished model of these BR mineral and scrap stalwarts which lived from the 1950s all the way to the

1990s, it's easy to see why these wagons have been so popular among modellers.

On top of that, it's just £74.95 per triple pack, with 10% off when you order two or more wagon packs, free UK postage and packaging AND 3% loyalty point cashback on each purchase direct, the further amazing savings soon start to build up.

Order yours below for immediate shipment!
