Wainwright P Class Decorated Samples Revealed!

accurascale

Following hot on the heels of our Warwell and Andrew Barclay decorated sample reveals, the final of the announced Hattons Originals trio of models we are completing production on, the Wainwright P Class 0-6-0 tank engine, can now also be previewed for the first time!

accurascale

We actually showed these in our cabinet at the recent Model Rail Scotland but have since returned to our desks and taken some proper photographs of these handsome little tank engines for you to enjoy.

accurascale

Firstly, we can confirm that the shade for the SECR green is incorrect, and was a mistake by the factory. Naturally, we will ensure that the correct shade of green will be used on the final models modellers will receive when production is complete.

accurascale

There are some other small corrections required, such as lining and crests, but nothing huge, which means we can green light production!

Let's have a look at each loco below.

team, and checking over by ourselves in recent weeks, it means that we can now go full steam ahead into production!

Delivery of these models is slated for Q4 of 2024. If you had a pre-order with Hattons, but are yet to hear from us, then please contact us via the chat function on the website. If you fancy one, we have a limited amount of stock available to pre-order which can be done so via the link below. As production quantities were agreed with the factory previously by Hattons, we cannot increase production quantities at this time, so pre-ordering for no money down, or via our partially service over 6 months at no additional cost, is advised.

Check out our bunch of banana vans - NOW IN STOCK

Our latest wagon arrival, the two diagrams of Southern Railways Banana Vans (SR D1478 and D1479) have now arrived in stock, along with their BR Banana and Departmental equivalents! We are still in the process of dispatching the pre-orders to direct customers and retailers and we hope to have that process completed by the end of this week.

A couple of packs are already sold out, with others getting close to selling out, so make sure you get your order in while you can. With a fully diecast chassis, brass bearing caps for smooth running, individual printing and lettering between each wagon, a wealth of separately applied detail for just £84.95 per triple pack of wagons, with 10% off when you buy two or more packs, they represent excellent value for money for such as sophisticated level of detail and fidelity we love to bring to our wagon projects.

In Stock Locos Ready To Go - 37s, 92s And Manors

Did you know, that our Class 37, Class 92 and 78xx Manor finished 1st, 2nd and 3rd respectively "OO Locomotive of The Year" category in the 2023 Hornby Magazine Awards?

It was a result which absolutely blew us away, but demonstrates the customer satisfaction and love for our locomotives.

The good news is we still have a very limited supply of all three locomotives in stock, most of which are fully sold out at retailers.

So, if you want to see just what all the hype is about, shop below and enjoy realistic models at realistic prices, coupled with unrivalled features, detail and at an unbeatable price point. When you throw in free UK Postage and Packaging, along with 3% cashback through our points system on every purchase, you know you're onto a good thing.

Oh, and then there is our LIFETIME Accuracare warranty too!

Pre-Ordered Your Hattons Originals Loco Yet?

accurascale

As we revealed last month, we have taken over the tooling of a multitude of models from Hattons following their recent closure. This includes their well regarded steam tank engines; the Andrew Barclay 0-4-0 and the SECR Wainwright P Class 0-6-0.

accurascale

Both locomotives are now entering the production phase following our review and corrections of the recent decorated samples we revealed in recent weeks. This means that the quantities have now been set with the factory, so remaining stock is now limited.

So, if you fancy one of these little stunners, we recommend that you place your no money down pre-order below, or even opt for our partially system of payment to spread the costs over 6 months at no extra charge. With free postage, a lifetime warranty and 3% cashback in loyalty points thrown in too, they represent quite the bargain, especially when you consider that they are priced at just £99.95 to begin with!

Locomotives, Wagons and Vans About To Sell Out

Did you know, we currently have 124 different product lines currently in stock and for sale on our website?

Although known for our quick sell outs, we have increased production runs further so you don't miss out on some pretty special

models. It's not just accessories either, but locomotives and wagon packs are in stock right now, ready for you to purchase.

However, try as we do, our models still sell out rather quickly, so we have created a button on our website where you can browse everything that is in stock right now, which you can access via the button below.

Below the button we have some models highlighted that are close to selling out completely, including our latest wagons; the rather lovely Banana Vans.

Remaining Warwell Wagon Stocks Now Available to Purchase

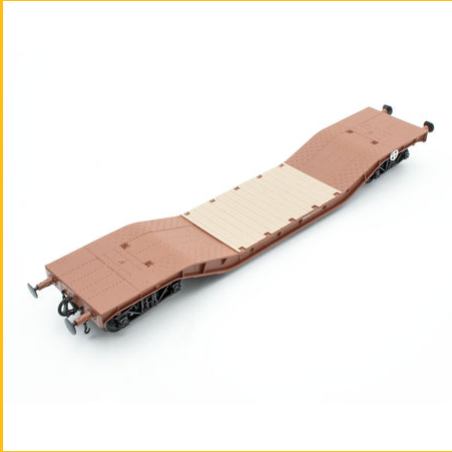

accurascale

Great news! We have now placed the remaining stock of our Warwell wagons in OO gauge back on our website.

Please note that some running numbers are already fully sold out, and some others are not far behind them, so if you want to back some of these bargain but beautiful wagons, do not hang around.

Priced at just £25 each and featuring a wealth of detailing, separately applied parts and a mostly diecast construction, these wagons offer an excellent bang for your buck. After all, that's what Accurascale is all about!

accurascale

Will Our Tadpoles Spawn Traffic On Your Layout?

accurascale

As you may have seen, our all new banana vans have gone down a treat since they arrived in stock in the last week.

However, these might be a bit early for some BR modellers, particularly those interested in the 70s.

However, thanks to BR Departmental service, you don't have to miss out on these beauties, as they were reclassified as "Tadpole" wagons from 1968 onwards.

Mainly being used as Fitted Heads and classified as Tadpole, most conversions dated from the 1967/68 period, as numbers of the ex-SR and early BR vans became redundant and originated mostly from the very large fleet that served the Geest Import Terminal at Barry Docks.

Most were based at Llantrisant and Swansea, their main use occurring on the iron ore workings from British Steel Corporation's Llanharry Mine and the Limestone workings from Creigiau to East Moors Steelworks in Cardiff, via Pengam. A common sight around the yard at Llantrisant, it was from there that they were added to the trains, while the Swansea vans worked out of Jersey Marine Yard by 1974 and were used on the Limestone workings from Craig-y-Nos to Llanwern and were added at Jersey Marine for the run up the South Wales Main Line.

The vans started off with DS and DB suffixes and from 1974 were noted as TDS and TDB, and then by their TOPS code of RBV. A few examples never gained the D prefix, although most seemed to carry Circuit markings along with a very small branding and the last example of the ex-SR Banana Vans was withdrawn around 1978, leaving no examples preserved.

We have created two tadpole packs, which you can order below for just £84.95 per triple pack of wagons, and a further 10% off when you buy both packs and 3% cash back in loyalty points when you order direct!

Our Banana Vans Are Splitting Fast - Don't Miss Out

Our Banana Vans have been a huge hit since they first arrived in stock a couple of weeks ago, with several packs already sold out and more getting close to following suit.

They do hold a lot of "appeel" of course, with a lovely weighty diecast chassis, brass bearing cups for the silkiest of running, a

wealth of detail and two different diagrams (so essentially two different wagon designs!)

We have also found a small amount of our single wagon "Accurascale Exclusives" wagon and put them back on sale too if you just fancy one!

Grab a bunch below! Remember, there is 10% off when you buy two or more packs and free postage and packaging when you buy direct, along with 3% cash back in the way of loyalty points against future orders.

Impressed with our Mark 2b Coaches? Check Out Our Mark 1 Subs

Our Mark 2b coaches have gone down very well indeed since their arrival in stock in the last few weeks, with modellers loving the fidelity, robustness, lighting and finish.

Our Mark 2c coaches have also proven very popular on pre-order, and are due later this year. So popular in fact, that they're also pretty much sold out on pre-order.

However, all is not lost. Have you checked out our Mark 1 Suburban coaches?

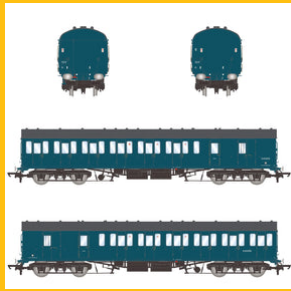

The factory have informed us that production is now in the final leg of these coaches, with production samples due with us for assessment in 2 weeks time. If they pass muster then they will arrive at the end of the second quarter of 2024! So, not too much longer to wait!

BR Carmine and BR Blue, the latter of which will sit very nicely side by side our BR Blue/Grey Mark 2b and 2c coaches are due in the first delivery, with maroon variants due later with a delivery date of Q1 2025.

So, if you like our Mark 2b coaches and fancy some more of our coaching stock on your layout or in your collection, check out our Mark 1 subs below, or via your local retailer. Remember, it's 10% off when you buy two or more, with free UK postage and packaging and 3% cashback via our loyalty points on every purchase when you order direct.
