**Oggetto:** Class 66 and 37 Run 2 Mini Update

accurascale

## Class 66 and 37 Run 2 Mini Update

accurascale

We have some exciting news regarding two forthcoming new locomotive releases, so we have combined a mini update regarding our Class 66 and Class 37, detailing when you can expect them on your layout!

### Class 66

As reported elsewhere, production of our Class 66 run 1 is now complete and the majority are on the high seas and due with us in approx. 7 weeks time.

So, if that's the majority, then what about the rest of the stock?

Well, we can confirm that a limited supply of Accurascale Exclusive 66001 arrived at our warehouse last week! We have enough to

cover the pre-orders of this loco, and we shall begin distributing them later this week after our usual checks and packing is complete!

## Class 37 Run 2

With our Class 66 production now complete, our factory are now entering final assembly of the second production run of Class 37s. Due to the huge popularity of both locomotives on pre-order, production has taken a little longer than anticipated. Therefore, 37 production is slated to be complete in mid-May, with them arriving in stock in mid/late July.

Look out for an exciting update from another one of our lovely diesel projects, the Class 31, late next week!

accurascale

## Last of The Mark 2b Coaches Now In Stock - Grab Them While You Can

accurascale

Great news! The last of our Mark 2b stock is now available to purchase on our website!

We have very limited supply of several running numbers across BR Blue/Grey, Provincial, Network SouthEast and West Coast Railways liveries remaining in stock.

These coaches have gone down very well indeed with modellers, so make sure you don't miss out if you want to see what all the fuss is about!

**Oggetto:** War Call - Last of The Warwells In Stock And Selling Fast

accurascale

## War Call - Last of The Warwells In Stock And Selling Fast!

accurascale

A call to war! The final stocks of the Hattons Originals Warwell wagons in OO gauge are now back on the website and selling fast!

Some liveries are completely sold out, and others have limited availability, so make sure you grab them while you can.

Priced at just £25 each with a largely diecast construction with fine plastic detailing parts, they offer excellent value for money and are a wonderfully interesting and widespread travelled wagon.

Order yours below!

**Oggetto:** 66001 Has Landed - Need Some Wagons To Go Behind Yours?

accurascale

## 66001 Has Landed - Need Some Wagons To Go Behind Yours?

accurascale

Our Class 66 pioneer, 66001 in original EWS livery, is now landing with pre-order customers and is the first Accurascale Class 66 in the country, just like the real locomotive back in 1998.

In the meantime, your 66001 may be requiring some wagons to go behind it, and of course, we have you covered there too!

We have 4 packs of MHA spoil wagons, as well as a selection of MGR wagons which are perfectly placed behind your EWS Class 66 as you put it to work on your layout.

Priced at just £74.95 per triple pack, with 10% off when you buy two packs or more, with free UK postage and packaging and 3% cash

back with our loyalty points scheme, they represent unbeatable value for money and quality.

They also weather up nicely too, as can be seen above! We even have some excellent weathering guides for these wagons as part of our "let's get involved" modelling blog.

Order yours below!

**Oggetto:** Accurascale – Your Climate Hero

accurascale

## Accurascale – Your Climate Hero

accurascale  
Carbon-neutral shipping on all orders

**Accurascale launches an industry first initiative to go green and offer FREE carbon-neutral shipping on ALL orders.**

In line with Earth Month in April 2024, when environmental issues take centre stage, we looked at how we can further improve ourselves and our processes, to grow as a company, while also thinking about our environment.

We already offer 100% recyclable boxes and packaging, but we

wanted to do more. Therefore, we've joined forces with a global effort of businesses to offset the carbon footprint of commerce.

### What does that mean?

It means that every order placed with Accurascale direct will contribute (at no extra cost to the customer!) to groundbreaking carbon removal projects along with offering carbon-neutral shipping on all orders.

### How does it work?

For every order we receive, a formula is used to calculate the estimated shipping emissions, based on those estimates a portion of our revenue goes to carbon removal companies – at no extra

cost to you!

We've taken the decision to absorb this cost ourselves as we know how important our environment is to us and our customers.

That's not all! Along with our own climate commitment, you, (our customer) can choose to 'top up' our support for ground-breaking carbon removal technologies with every order placed. You can do this at the checkout, where you will have the option of adding a further 20p to your order should you wish. This is completely optional.

One of the many ways Accurascale are continually pushing the boundaries in the model railway industry.

accurascale

## Last of The Manors - Dinmore, Hinton and Granville Selling Out Fast!

accurascale

Our multi-award winning 78xx Manor has gone down a storm with modellers, and we are now getting down to our last stocks of some very popular locos, with others completely sold out.

We found a carton of Dinmore Manor in stunning lined black, which has just gone live on the website. This is the very last of them, so grab it now if you want one.

Meanwhile Hinton Manor in DCC Sound fitted format, and Granville Manor in both DC/DCC Ready and DCC Sound Fitted formats are very low in stock.

**Oggetto:** Pre-Order Our Nifty Class 50 Yet? Perfect For Your Mark 2b and 2c Coaches

accurascale

## Pre-Order Our Nifty Class 50 Yet?

accurascale

As you probably know, we love to build trains here at Accurascale. It's not just about the locomotive, or the wagon or coach, but creating a full train for modellers to enjoy where we can.

Our much loved new Mark 2b coaches, along with the forthcoming Mark 2c coaches needed a natural bedfellow for haulage. Hence, the Accurascale Class 50. Well, that and the Hoover-nut nature of some of the Accurascale team!

With the Mark 2b coaches now here, and the Mark 2c coaches nearing completion at the factory, we can confirm that the 50 has now entered production and is on schedule to arrive with us at the end of the year.

With production now underway, we cannot add more locos to the production line, so the remaining stocks available for pre-order are now capped and therefore, limited.

accurascale

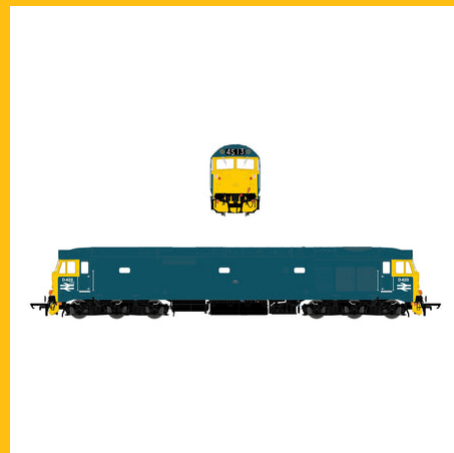

Four variants are no longer available for pre-order, and several more are not far behind. So, if you want one, make sure you get your no money down pre-order in ASAP to avoid disappointment.

Don't forget our partially 6 month payment plan too, helping you to spread your 50 payments at no additional cost!

accurascale

## Deltic Run 2 Progress

Following on from the news that our forthcoming Class 50s are entering production, we can confirm that our highly anticipated second production run of Class 55 Deltic locomotives are also well under way and progressing well through the production process.

accurascale

We can confirm that the locos are still on track for delivery for Q3 2024 as previously advised.

Like the Class 50, we cannot add any further locos to the production run, so remaining stocks are limited. Make sure you get your pre-order in soon below, or via your local retailer.

accurascale

## Pick Up Models From Our Exclusives Range Before They Sell Out

accurascale

Who doesn't love an exclusive model? Limited edition, with some unique artwork to set the model off from the rest of the range.

Our Accurascale Exclusives range of limited editions have become highly sought after too, with special presentation packaging.

We currently have two accurascale exclusive models in stock, including the brand new banana van in Departmental Ballast

Cleaner Support Van guise, as well as the very last of our Stobart Rail Class 92 we did in association with Kernow Model Railway Centre.

Remember, you can only buy our exclusives direct via our website, so you wont find them anywhere else!

Order below for immediate dispatch.

**Oggetto:** New Announcement - TPE Mark 5 Dedicated DCC Decoder With Built In Stay Alive

accurascale

## TPE Mark 5 Dedicated DCC Decoder With Built In Stay Alive!

We have teamed up with our friends at DCC Concepts who have developed a decoder with an attached stay alive capacitor specifically for our TPE Mark 5 Driving Trailer.

Zen decoder software has always been smooth, clever and easy to use but the new BLACK decoder range takes this to a new level, with extended and improved automatic braking and shuttle abilities, simple-to-use ONE step locomotive set-up and advanced brown-out protection.

All DCC Concepts decoders are tested at least 3 times before they package them for sale, so they know that they all work perfectly when sold and you can be quite confident that reliability is assured.

**Decoder features:**

1.1 Amps peak power  
750mA continuous power  
4 functions at 100mA each  
2 additional "logic" functions  
22mm x 16.5mm  
21-pin direct, 8-pin & harness  
One-Step Loco Setup  
Shuttle mode (requires ABC boards for this to function)  
Stay-Alive connection

**Decoder Programming:**

F0 – Head/tail lights  
F1 – Cab interior lights  
F2 – Destination boards  
F3 – Destination mode

This decoder is now in stock, priced at £35.94 and can be bought exclusively via the Accurascale website below:

accurascale

## Weather Your Mineral Wagons With The Help Of Mouldy Raspberry

Looking to take your Accurascale rolling stock to a whole new level of realism?

There is not much else to do, but weathering is something that can really change a model into a realistic representation of the real thing.

Having recently snapped up our new run of 21 ton unfitted mineral wagons, Mouldy Raspberry decided to get the weathering materials out and has filmed his process to take them to the next level.

Click on the image below to watch!

Fancy some? Our latest batch are now in stock, with new numbers but the same great value of £74.95 per triple pack and with 10% off when you order two packs or more. Grab them below!

**Oggetto:** Tanks A Lot - Hattons Originals Tank Locos Selling Fast

accurascale

## Tanks A Lot - Hattons Originals Tank Locos Selling Fast

accurascale

Great news! Not only have we secured the future of the Hattons Originals tooling for the Warwell, the SECR Wainwright P Class and the Andrew Barclay tank engines (and a lot more besides, which will soon be revealed!) but we have now delivered the Warwells and have now confirmed the production quantities for the P and Andrew Barclay locomotives with the factory.

With production commencing, it now means that the quantities are set. Therefore, we only have a limited amount of both locomotives available to pre-order.

accurascale

So, if you fancy one of these pretty little tank locos on your layout, or in your collection, be sure to put your name on one soon to avoid disappointment. Due later this year in stock, they're available for just £99.95 each, only direct via Accurascale. We do throw in free UK postage and packaging too!

Shop below!

accurascale

**See Our Production Sample Class 31 and A Real Class 37 At Model World Live This Weekend!**

It's Model World Live weekend! We are busy preparing for a busy weekend with the NEC for the Key Publishing new show which features a large model railway presence, as well as an insight into other modelling disciplines like military modelling, a world record attempt by Pete Waterman and the Making Tracks team as they put

together their largest layout yet and some other excellent layouts across multiple gauges such as Blair Atholl Towards Drumochter!

Hornby mag wanted to make a big splash, and as headline sponsors we were only too happy to help, so with the aid of Rick Davenport and our friends The Heavy Tractor Group, we have brought a real Class 37 with us too. 37108 has been spruced up for the occasion and is off to Ruddington to continue with its restoration after the show.

accurascale

The Tractor will be beside our stand (B10) where we will be on hand to bring you the latest news on all our models and free copies of our latest catalogues. This includes the first look at production Class 31s. Make sure you pop by, to see our (almost, we have amended the headcode font and fit) final production sample on the stand.

A full update will follow in the coming days, but as you can see, they're not very far away now!

So, make sure you check out the show, see the 37 close up, and have a look at our 31. We have some limited availability left on the 31s which you can pre-order below, or check out your local stockist for availability too!

See you in the NEC!
