Plasticville® U.S.A.
75th Anniversary
Limited Edition Kits

In 1947, *Plasticville®* U.S.A. made history as the first line of mass-produced, injection-molded scale plastic structure kits. Throughout the ensuing decades, *Plasticville®* has continued to delight both model railroaders and miniature diorama builders alike with timeless designs. The structures in this limited-edition 75th-anniversary series represent

some of the best-loved *Plasticville*® pieces, once again displaying the colors found in their original promotional artwork from the 1950s. With snap-fit assembly, Bachmann's *Plasticville*® U.S.A. line provides everything you need to create a quintessentially American scene. Whether you're new in town or an established civic leader, you can be sure of a warm welcome in *Plasticville*® - a community limited only by your imagination!

40' Poultry Transport Cars

Delivering Your Holiday Turkey Has Never Been Easier!

Developed in 1884 as an improved means for transporting chickens, ducks, turkeys, and other fowl, Poultry Transport Cars were crucial in delivering favorites to the dinner table through the 1950s. These “henhouses on wheels” were designed specifically for the protection and comfort of the animals being transported, and featured wire mesh sides with multiple levels of individual coups, each fitted with feed and water troughs. An attendant traveled on board in the central compartment to feed and tend to the animals throughout their journey, often living in the space for up to a week as the train made its way across the country. Such was the relative comfort for the fowl being transported, that many owners opted to give names to their cars - a light-hearted nod to the luxurious named Pullman coaches of the era. Live poultry

trains reached the height of their popularity in the early 20th century, and "Turkey Specials" would continue to run in the days approaching Thanksgiving and Christmas until the last examples of this unique car were withdrawn in 1956. The Bachmann Poultry Transport Car allows you to rekindle the history surrounding these unique rolling stock items in HO scale, coming with see-through siding featuring a printed mesh finish, inserts depicting chicken or turkey cargo, an attendant service door, and quality components including *E-Z Mate*® Mark II couplers and blackened metal wheels.
