

New Model Announcement: 1:48 Cat[®] D10N Dozer – Die-cast

Posted on: May 14, 2024 · By: Gary Peterson

Classic Construction Models is extremely excited to announce the latest addition to our collection of 1:48 scale die-cast models, the Cat[®] D10N Dozer. Although still in the early stages of planning and design we will be sure and keep you updated on the details, as well as upcoming configurations, of this iconic machine as it progresses.

First released in 1987, the Cat[®] D10N Dozer featured an extended track frame for improved traction and stability over the D9L as well as a flywheel horsepower increase on the Cat[®] 3412 diesel engine from 460 HP to 520 HP.

Now we're talking! Thanks for showing some love to the 1:50/48 general construction collectors! I'll definitely be placing an order.

Alex on May 14, 2024 reply

Most likely I have to skip this one for budget reasons, but very pleased to see a new 1:48 classic model announced. Hopefully people place enough orders to make the model happen and to keep you guys in business in these still tough times.

David Licorish on May 14, 2024 reply

I wonder what configurations you will do . I would live to see an open ROPS U or SU version with single shank Ripper. Thanks for all the Great models like the 6090 in white I love mine.

Nico santana on May 14, 2024 reply

What good news, finally a 1/48 scale model

park kwang soon on May 14, 2024 reply

*I am very happy with the news.
I really want to collect this model.*

Nick Worthington on May 14, 2024 reply

Awesome news CCM, great to see yet another great 1/48 classic from you guys.

Bret Lutgring on May 14, 2024 reply

Stoked about this model!

Aj SMITH on May 14, 2024 reply

Absolutely awesome
