Start your Engines

B

Red-hot racing in cult BMWs! The Carrera DIGITAL 124 'Start Your Engines' set features the pedal-to-the-metal debut of two fantastic versions of the BMW M4 GT3! The BMW M4 GT3 is a dream drive for all car lovers. The BMW M4 GT3 'BMW M Motorsport, No.1' conducted several real-life race trials, turning heads with its striking grille, sophisticated black-and-white design and attractive blue and white highlights. The exquisite BMW M4 GT3 is also at home in the increasingly popular world of E-Sim racing: One high-profile category being the digital Nürburgring long distance racing series - with four M4 going straight to the top of the standings. Now it will be lighting up the eyes of racers everywhere as a fixture on Carrera racing circuits. So far, the BMW M4 GT3 'Mahle Racing Team' has only gathered virtual racing experience. Now a new chapter begins for racing enthusiasts as they grab their handsets, place their BMW slotcars on the racetrack and navigate the bends with precision and skill.

Race to Victory

KIM

↔ 10.01 x 6.23 ft.

□ 26.25 ft.

High speeds over long distances with the Carrera DIGITAL 132 'Race to Victory' set. At the start of the 8 meters/26.25 ft. racing circuit there's the KTM X-BOW GT2 'True Racing, No.16' in an orange paintjob, featuring extraordinary technology and design purism. Alongside at the front of the grid is a bright red no. 20 Mercedes-AMG GT3 bearing the Carrera-type logo in which the SPS automotive performance team sped to fifth place in the 12-hour race at the Paul Ricard circuit. Both slotcars are fitted with front, rear and brake lights. The drivers go head-to-head on a super-challenging track featuring high-speed straights, tricky bends and a double lane-changer section that requires tempo and braking to be perfectly tuned for each vehicle. WIRELESS control handsets guarantee precise steering and maximum freedom-of-movement around the racetrack.

Peak Performance

GM | P

↔ 7.87 x 4.1 ft.

□ 27.56 ft.

Hitting the heights: Porsche versus Corvette! Carrera's 8.4-meter/27,56 ft. circuit guarantees great racing thrills with the Carrera DIGITAL 132 'Peak Performance' set, and mountain runs that hit all the heights! The Porsche and the Corvette both pack the horsepower-heavy punch needed in the hills. The performance of the silver-grey Chevrolet Corvette C8.R 'No.3' is perfectly matched to face off against the white Porsche 935 GT2 'J.Zwart, No.11'. Driven by Jeff Zwart, the Porsche is known for its achievements in the 'Pikes Peak International Hill Climb' race and the 'Race To The Clouds'. After a 5-year break, in 2020 Jeff Zwart returned to the racetrack to drive the Porsche 935 GT2 back up onto the podium. The Chevrolet Corvette C8.R 'No.3' raced for the first time in this livery in Sebring in 2021. Both cars are thrilling replicas thanks to the original reproduction license - and their front and rear lights. The 8.4-meter/27.56 ft. mountain ride on extra-wide track sections offers lane-changing opportunities, long straights, complicated bends, as well as lane shifts and overtaking at the push of a button for lots of drifting and driving fun.

DTM Fast and Fabulous **NEW**

AIBIDT

↔ 10.01 x 5.58 ft.

⏏ 23.95 ft.

Two young DTM stars in a photo-finish! The Carrera DIGITAL 132 'DTM Fast and Fabulous' set sends two German DTM superstars out onto the grid. This is a duel on a 7.3-meter/23.95 ft. car racing circuit between the Team Winward Mercedes-AMG GT3 EVO, and the BMW M4 GT3 racing car of Team Schubert Motorsport. David Schumacher, the son of ex-Formula 1 driver Ralf Schumacher, made his DTM debut in the blue, white and yellow Mercedes of Team Winward. Meanwhile, the South African shooting star Sheldon van der Linde rolls alongside in the no.31 black, red and yellow BMW M4. These drivers have both already won a DTM championship! The accompanying controllers allow drivers to steer their own racing fates as they elegantly take advantage of the double-lane-changers. Even more authentic racing thrills arrive with ghost and safety car functions, plus speed and braking that can be set separately for each car. Extra accessories enable up to 6 drivers to compete in one race.

8.86 x 6.07 ft.

24.93 ft.

Beefy bulls or mighty horsepower! The Carrera DIGITAL 132 'DTM Bull and Horse' set pits two powerful race cars from the Italian AF Corse race stable against each other. The return to the DTM series in 2021 was heralded by a supersportscar cooperation agreement between the AF Corse team and Red Bull. The New Zealand driver Liam Lawson occupies the cockpit of the Ferrari 488 GT3 'Red Bull AF Corse, No.30', while the British-Thai racer Alexander Albon and another Kiwi, Nick Cassidy, alternate at the helm of the Ferrari 488 GT3 'AlphaTauri AF Corse, No.23' in the livery of Red Bull's premium fashion brand, AlphaTauri. It's up to slotcar specialists and their handset skills to decide which long-distance automobile ultimately takes the crown around the 7.6 meters/24.93 ft. Carrera racing circuit. Drivers can change lanes and pass rivals at the push of a button, and the speed and braking power of each car can be set to the requirements of its driver. This set comes with two WIRELESS controllers for complete freedom-of-movement around the circuit.

30.41 ft.

3-way retro battle to mark Carrera's 60th anniversary! Three unique racing legends take to the grid on the 9.3-meter/30.41 ft. track! The Carrera DIGITAL 132 'Retro Grand Prix' set features three high-velocity racing legends. The Lancia Beta Montecarlo Turbo 'Lancia Martini Racing, No.3', Daytona 1981. The eye-catching blue and yellow Porsche Kremer 935 K3 'No.54' is a DRM (Deutsche Rennsport-Meisterschaft) classic, and was driven to victory by Klaus Ludwig. The Ford Capri Zakspeed Turbo 'Würth-Zakspeed-Team, No.2' was overall winner of the DRM in 1982, and also driven by the legendary Klaus Ludwig. The included controllers allow for precise car speed toggling and can be set to suit each driver. There are also ghost car and safety car functions. One of the set's special highlights is an exclusive metal sign stating 'Experts drive Carrera'.

An American dream... - Time for a duel between cult US cars! The Dodge Charger 500 'No.1' with its aerodynamic front and dark blue paint-job, topped of with a golden no. 1, is ready to battle for the top of the podium in the Carrera Evolution 'Speedway Champions' set. The Dodge is one of the most stunning American Muscle Cars to have been produced in the 1960s and 70s. The white and metallic gold Ford Torino Talladega was custom-tuned for Stock Car racing. The Talladega bears the number 48 and grumbles tensely on the start line - ahead of the imminent screeching, smoking start! All racing drivers of 8 years upwards can now enjoy Muscle Car action on their own circuits as they master the speed of the longs straights, two lane changes and super-risky steep bends!

Battle of the DTM Giants! Two ultra-skillful DTM drivers are guests in racing homes around the world in the Carrera EVOLUTION 'DTM For Ever' set. Bruno Spengler vs René Rast! In the 2020 season René Rast won his third drivers' championship in four years in the Audi RS 5 DTM. In the 2019 DTM season Bruno Spengler rolled out onto the grid for the eighth year running in his 'Black Beast' BMW. Spengler achieved a total of 51 podium finishes and 16 victories in the DTM. The matt-black BMW M4 DTM 'B. Spengler, No.7' and the bright red and white Audi RS 5 'R. Rast, No.33' attract plenty of stares on this Carrera EVOLUTION racetrack with its long straights, steep bends and extra-wide 1:24-scale tracks. Ferrari Pro Speeders

FE

Italian pedal-to-the-metal thrills! The Carrera GO!!! 'Ferrari Pro Speeders' set is all about top speed. Two true pros of the long-distance racing scene meet on the Carrera racing circuit. The Ferrari 488 GT3 'Squadra Corse Garage Italia, No.7' in the striking red, green and white livery of the Italian tricolore puts the foot to the floor for victory against his compatriot around the 8.6 meters/28.22 ft. racetrack. The fiery-red super sports car Ferrari 488 GT3 'AF Corse, No.488' can match its rival in every aspect of power and performance. Long straights, steep bends, chicanes and junctions provide Carrera drivers with super-tough challenges to solve on their handsets equipped with a turbo button, but with enough practice and fun, every junior driver graduates to become a true champion!

PERFORMANCE MEASUREMENT!

THE CARRERA CHECK LANE MAKES IT POSSIBLE!

The Carrera track incl. DIGITAL decoder for segment and split time measurement.

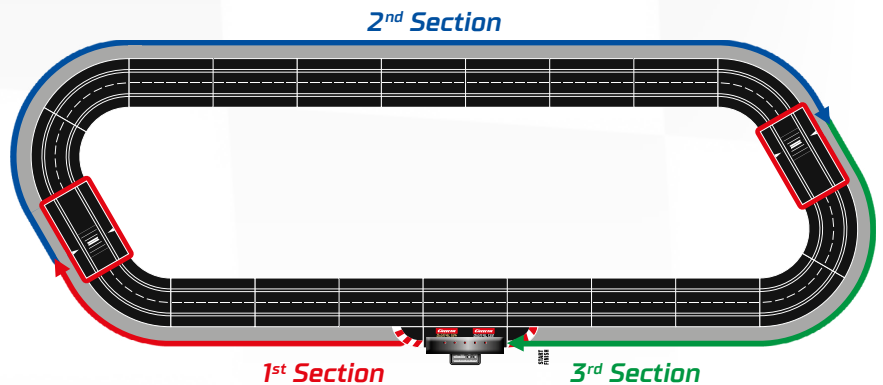

20030371

Carrera Check Lane

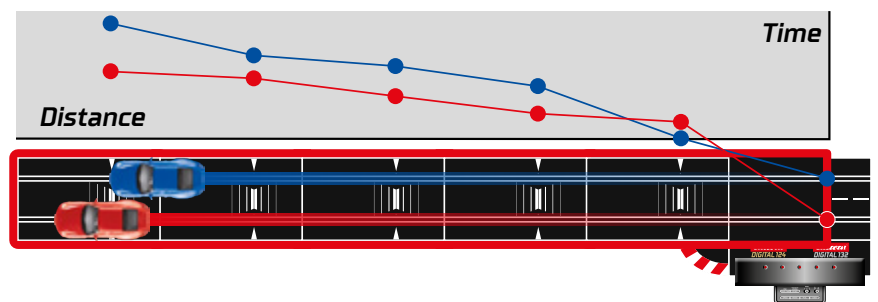

Split TIME MEASUREMENT

The Carrera Check Lane makes it instantly possible for Carrera drivers to measure their intermediary times. Placed at any point, the Carrera Check Lane measures the drivers' intermediate times. Just like in real auto racing, the Carrera drivers instantly have their complete driving behavior on the course under their control.

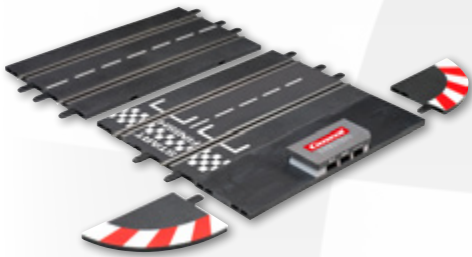

ENGINE MEASUREMENT

The acceleration of a Carrera car can be measured precisely, through the installation of several Check Lanes in a row. Thanks to the Carrera Check Lane, not only the final result, but also the driving behavior throughout the entire race counts! (only in connection with Carrera App Connect and the Carrera Race App).

ENJOY FULL ACTION AND THRILLING CAR RACES

**ON YOUR MARKS, GET READY, GO!
LET THE RACE BEGIN ...**

Full racing action is guaranteed with the cool Pull & Speed racing cars.

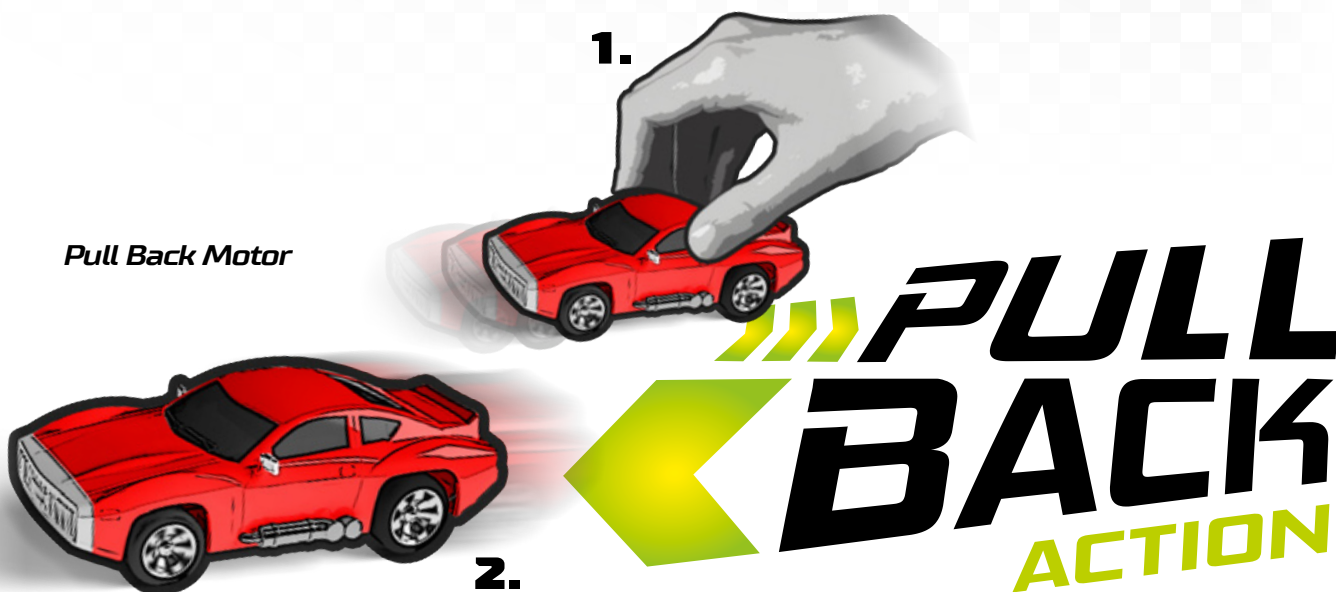

A big variety of vehicles will make the heart of any little race driver beat somewhat faster. The strong pull-back engine makes it possible: simply pull the cars back, let them go and in an instant the vehicle takes up the race in full speed. Due to the stable plastic chassis collisions and crashes do not constitute a problem and thus the vehicles are also suitable for children ages 3 and up.

The small and precise replicas, at a scale of 1:43, are in no way inferior to their "big brothers". Due to the original licenses the models fascinate by their perfect scale and detailed execution. Pull & Speed offers great driving fun for all ages as well.

2,4GHz Mario Kart™ Circuit Special, Mario

NI

Boredom is a thing of the past: Here comes Mario in his speedster! The moustachioed, rather short hero Mario, dressed in his overalls and peaked cap, can now rule the playroom in his new racing machine. The blue and white race kart makes quite an impact with its length of approx. 25 cm/9.1 in.! With speeds of up to 10 km/h - 6.2 mph, Mario lets the tires squeal. Thanks to the 2.4GHz full function transmitter and an extra durable and especially reliable 3.2V-700mAh LiFePo4 battery, Mario can enjoy up to 20 minutes of racing with his friends. The vehicle is "ready to run" and so guarantees racing fun from the very first instant.
