Issue 94 PLATINUM

UK & EIRE 2 Guineas (£2.10) USA \$5.00

The Bedford CA is a brand new addition to our range. If you asked anyone in the early 1960's what was the most popular light commercial vehicle, then the answer would have been the CA. Ours is based on the 15 cwt series which was produced between 1959 and 1969 and we will be releasing it in a variety of bodyshapes. The first is a milk float, but we have many more to follow including a Pantehnicon, canopy pick up, van, minibus and of course an ice cream van.

The Bedford CA had a 90 inch wheelbase, quite small by today's standards so they launched a 102 inch version which was designated the CAL, hence the CA became known as the CAS.

Lookout also for the Unigate mini van also in this Globe.

TY·PHOO *The Better Value* TEA

Typhoo was launched in 1903 by John Summer Jr following comments from his sister on the calming effects of tea fannings. The name Typhoo came from the Chinese word for doctor – "Dai Fu".

A few new members have queried the origin of our bus and details can be found in the "Journey Through Time" book, but it did not originate from the old Budgie moulds. It was developed from the Corgi patterns around 1984/1985 by Dusty, for Seener of London. Subsequently the moulds have been replaced and updated, the chassis being a different construction from the Seener original.

The Austin version of the Paralanian proved very popular, so here's a Morris version. These lovely coach built bodies were made by Central Garage who were based in Parry Lane, Bradford. We've had quite a few letters from members who have seen a modified JA005 appearing on the internet - a Chipperfields liveried version went for over £60 recently. This was a CODE 3 model - a vehicle from our range that has been converted without our knowledge. This is a common practice and we have no problems with conversions taking place, but of course we do not sell these models ourselves.

KLM was founded in 1919 and its first scheduled flight took place one year later from Amsterdam to London. During the war all KLM aircraft still operating had "Holland" painted in large letters on their fuselage to identify them as neutral. KLM is the abbreviation for, KONINKLIJKE LUCHTVAART MAATSCHAPPIJ which literally means Royal Aviation Company and in 2004 it merged with Air France.

NOTE PRODUCTION VEHICLE IS MAROON BOTTOM NOT BLUE.

The need for Austin to create uniform coloured vehicles across the country was very difficult, with local dealers adopting different styles. This led to various newsletters requesting the use of Austin Stone Grey, Austin Claret or Austin Blue. Slogans were also suggested, such as "You can depend on Austin Service" or "Express Spare Parts Delivery". Dealers were reminded that a well designed service vehicle will have a long term impact in the public.

Founded in 1897 as the Automobile Club of Great Britain, King Edward VII commanded that it should be known as The Royal Automobile Club. The Morris J2 joined the fleet of vehicles owned by the club in the 1960's and many radio rescue vehicles could be seen around the countryside.

H.&R. TOGNARELLI

Tognarelli

CODE MM047	SCALE 1:43	EDITION 2000	PRICE £9.95	
----------------------	----------------------	------------------------	-----------------------	--

The actual vehicle is owned by Ian Gutherson from Northumberland. Ian's van is a splendid looking body conversion that was carried out by Myers of Distington in Carlisle for H & R Tognarelli's of Workington. The company purchased two new Minor vans in 1957 and 1958 before sending them off to Myers! The vehicles were registered as TAO 211 and URM 620. TAO 211 was re-registered to YVS 329 and was purchased during 1994 by Ian after seeing the pair advertised in a local paper in Sunderland. YVS 329 carries chassis number OEH15/51433, which equates to: E = Van, H = Primer, 1 = RHD home market, 5 = Primed. 51433 = the 50932nd LCV assembled during 1957, the V5 document confirms that the van was first registered on 03/04/1957. Special thanks to Russ Harvey for the information and Ian for the pictures. We hope to meet Ian at the Dorset Steam Fair and hand him over the first off production sample.

Unigate was formed in 1959 by the merger of United Dairies with Cow and Gate Ltd. This makes an ideal companion for our milk float shown on the front cover. As we all know the fierce competition from the supermarkets led to a decline in doorstep deliveries and mounting losses led to the milk division of Unigate being sold to Dairy Crest in 2000.

New 1:76 Modern Truck range starts - January 2008

An exciting new range of modern trucks are scheduled for release starting January 2008. Tooling is already underway and the first cab will be the Scania R Topline, with 3 different chassis types – skirts, small tank and large tank. Further cabs will release at three monthly intervals throughout the year with licences already in place with all the major truck manufacturers. The first featured trailer will be based on a Boalloy design with an expanding selection of variants from other manufacturers scheduled later in the year. The models will come neatly packaged on a plinth with a clear display case and the first models will be competitively priced at just £17.99 each.

First releases are ,Fagan & Whalley ,Pollock Scotrans, L E Jones, Tinely Transport, Stan Robinson and Mulgrew Haulage.

New 1:43rd scale TX4 London Taxi - January 2008

Oxford have supplied all the leading London airports with buses and taxis for many years and are pleased to announce the release of the new TX4 London Taxi.

New 1:76 scale FX4 Taxi
October 2007

We will add a 1:76 FX4 taxi to our range at the end of Quarter 1 2008.

OXFORD

As our new tooling releases have increased over the last year, we are finding it necessary to formalise the announcement of products on a more regular basis to keep everyone informed about our plans. We would rather members read the information here than find out elsewhere. Our policy of introducing new tooling continues and we are also adding a new range of 1:76 scale modern trucks. TAFF
