Issue 116

UK & EIRE 2 Guineas (£2.10) USA \$5.00

MGZB

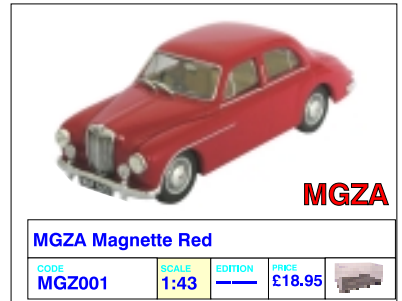

The ZA was replaced by the Magnette ZB in 1956. Power was increased to 64 hp by fitting 1½ inch carburettors, increasing the compression ratio from 7.5 to 8.3. The interior was improved by fitting a wood

dashboard and there was also a Varitone model with larger rear window and optional two tone paintwork, on which our model is based. The extra power meant the top speed increased to 86 mph and the 0-60 mph time came down to 18.5 seconds.

Extending Trailer →

Donnell & Ellis Heavy Haulage was founded in 1990 and from humble beginnings has developed into one of the most successful transport companies of its kind in Ireland. The Omagh based company purchased its first lorry, a Scania 112 back in 1990 and from there the company has expanded at a rapid rate, now operating a fleet of 20 tractor units and over 50 trailers of differing specification, from flatbeds to step-frames that can extend up to 44 metres and multi axle low loaders with a carrying capacity of over 100 ton.

Six new 1:76 castings have been developed for release this month. Plenty of variety and all in authentic colour schemes. The Friary adds another estate car to the line up of models we have. £3.49 EACH

1:76

CRESTA FRIARY ESTATE

76CFE001
1957-1962

NEW

The PA Crestas had American looks and over 80,000 of them were built. The estate cars were converted by Friary of Basingstoke. One famous owner was the Queen - we will release that colour scheme later this year

ARMSTRONG SIDDELEY STAR SAPPHIRE

76AS001
1958-1960

NEW

The first Star Sapphire saloon prototype was built on a converted 346 Sapphire chassis. The production models replaced the Sapphire in late 1958 and continued through to the summer of 1960. Over 900 were made.

MORRIS MINOR MM SALOON

76MMS001
1948-1953

NEW

The MM came in 2-door, 4-door, and a convertible 4-seat Tourer. Over 250,000 were produced before it made way for the Series II. It would have cost around £340 at the time.

HUMBER HAWK MK IV

76HH001
1948-1952

NEW

In 1950 the Mark IV version was introduced with a larger 2267 cc engine than the Mark III. It also had larger 15 inch wheels. It had a top speed of 71.4 mph and could accelerate from 0-60 mph in 30.0 seconds

76VYV001
1951-1957

VAUXHALL WYVERN E

NEW

Over 100,000 were produced in a variety of bodyshapes. Holden, GM's Australian subsidiary also manufactured some which included a convertible and utility. The car was succeeded by the Victor.

76SR001
1959-1961

SUNBEAM RAPIER MKIII

NEW

A top speed of 91.7 mph and acceleration from 0-60 mph in 16.6 seconds. A fuel consumption of 29.5 miles per gallon. 15,368 units were built, before it was replaced by the Series IIIA in 1961.

The long lost Bedford CA Pantehnicon, in Pickfords livery, promised for release over a year ago - it's finally here. The reason it took so long is because it was too big to fit the case. This was a late addition to the line up as Rob decided he would add it to our line up as a surprise to me. What neither realised was the standard case was too low. A similar thing happened on the 1:76 scale Paralarians and one of our engineers came up with the right idea of dropping the wheels through the plinth - so we have done the same here, which finally

allows its release. I have had quite a few letters asking me where it is, so I'll be pleased to see the back of them !

Pickfords				NEW
CODE CA006	SCALE 1:43	EDITION ---	PRICE £9.95	

We promised the Daimler with ribbons and here it is thankfully, particularly as we have sold out of the DS001. In fact we have no stocks of any of the Daimlers at 1:43rd apart from this version. We will get more of the DS002 hearses in a few months. I am undecided whether we will rerun the Queen Mothers livery at this time, but I will review this in the coming months. The Daimler at 1:76 scale Black and Carlton Grey is in this Globe.

Daimler DS420 Wedding Car				NEW
CODE DS001W	SCALE 1:43	EDITION ---	PRICE £19.95	

The original AFS Green Goddess that we released a few months ago has been extremely popular. When the AFS was disbanded on 31 March 1968 the Goddesses were returned to the Home Office Stores . In 1971 Glamorgan Fire Service bought four emergency pumps from the Home Office and converted them into foam tenders for service at Port Talbot, Penarth, Barry and Pontypridd. The white over red livery was a characteristic of some of the Glamorgan fleet. We will have more stock of the 76GG001 next month.

Glamorgan Fire Service Foam Tender				NEW
CODE 76GG002	SCALE 1:76	EDITION ---	PRICE £8.95	

This is the Jaguar MK VIII, a narrower radiator grille than the MKVII, cut outs in the spats, Jaguar emblem on a different bonnet and a full windscreen. A few other changes as well, but I will let you work them out for yourself. A beautiful looking model in two tone, if I was a few years younger with a bit of money, this would definitely be on my shopping list. We are sold out of the JAGVII001, we have a few left of 002 and 003

Black/Cornish Grey - MK VIII JAG NEW			
CODE JAG8001	SCALE 1:43	EDITION ---	PRICE £19.95

The Interceptor Series III. At the time of writing we had oversold the Series I JI001, the Series II JI002 availability was looking problematic, possibly the clamour for these models will subside as additional liveries release. What has surprised most people is the level of accuracy and detail. We have different wheels, interiors, bumpers etc to try and capture the look of each of the Series of models.

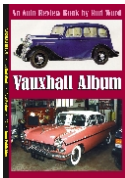

Jensen Interceptor Series III - Flag Red NEW			
CODE JI003	SCALE 1:43	EDITION ---	PRICE £19.95
