RailKing Trains are

FUN IN ACTION!

RAILKING PUTS BIG ACTION IN SMALL SPACES

RailKing Makes It Easy To Get Started!

RAILKING
READY-TO-RUN™ sets
 THE COMPLETE SOLUTION

RailKing Ready-to-Run O-gauge sets are The Complete Solution to getting started with full-power model railroading. Each box contains all the ingredients to begin a lifetime of fun! RailKing sets offer features no other company can match:

- **Wireless Remote Control** puts the power of a locomotive in the palm of your hand.
- **RealTrax snap-together track** is so simple that kids can assemble a loop in minutes. RealTrax has a raised plastic roadbed, which protects trains and carpets from each other.

• **Digital engine, bell, and whistle sounds** bring your trains to life!

• **Powerful transformer** gives your trains plenty of get-up and go.

• **RailWare CD-ROM** with track-planning software and tons of train information, graphics, and video footage. Start mapping out your railway empire—right on your computer! This \$79.99 value is included FREE in RailKing sets.

• **Quick Start Video** takes you step-by-step through assembly, operation, maintenance, and super fun with your RailKing set. This videotape is jam-packed with information, but so entertaining you'll find yourself watching it just for enjoyment.

• **Puffing smoke** on steam engines.

• **Uncompromising Quality-die-cast metal steam engines, detailed ABS diesels with dual motors, and colorful cars with smooth-spinning metal wheels and durable molded bodies** mean hours of **trouble-free action**.

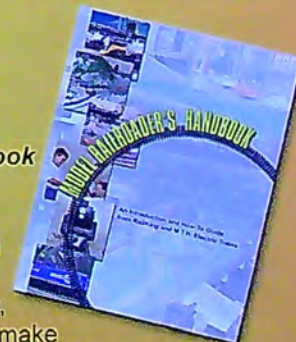

• **Lighted Cabooses and Passenger Cars.**

• **RailKing O-gauge trains are large and durable** enough for kid-sized fun, but a full track circle is only 31 inches across, so you can fit **big train action in a small space!**

Also available separately from RailKing:

Model Railroader's Handbook

This complete beginner's guide uses clear text and pictures to take you inside the exciting world of model railroading. Build your set into a complete world of fun, learn the secrets of realistic operation, see how simple it is to wire a RailKing layout, and master specialized railroading lingo. This book will make you an expert and help you have even more fun with your RailKing trains.

Have It All

RailKing Ready-To-Run train sets are perfect for new operators getting their first introduction to the hobby or for people looking for an easy way to add to an existing layout. Virtually every Ready-To-Run set comes with a full digital sound system and remote control, along with the RealTrax snap-together track system, powerful transformer, RailWare interactive CD ROM, Quick-Start Video and other features that already make RailKing sets the most complete on the O Gauge market. Each set comes with everything you need to get your railroad running in a single easy purchase.

Does not include Wireless Infrared Remote Control or Quick-Start Video. (30-4057)

Each M.T.H. steam or diesel engine is trailed by a set of three freight or passenger cars, which features a lighted caboose or passenger cars, die-cast metal trucks with operating metal couplers, fast-angle wheels and needle-point axles for a smooth, easy-rolling ride.

Advanced technology comes with most year 2001 Ready-To-Run Sets. It includes a choice of the Loco-Sound and Proto-Sound 2.0 digital sound systems, an interactive CD ROM that includes track layout software, and the RailKing wireless infrared remote control system.

With all the new technology and the complete package of equipment, there is no better value in the O Gauge railroad market than RailKing Ready-To-Run train sets.

Classic Power

Whether it's the chuffing pistons and shrieking whistle or the thick plume of smoke coming from the stack, RailKing steam locomotives will make you feel like you are at the controls of a real locomotive. Each die-cast steam locomotive is designed and manufactured to stand up to years of rugged use. And the equipment and details, including metal wheels and gears, a choice of sound systems, ProtoSmoke, a flywheel coasting drive trains, detailed cab interiors and many more, make RailKing steamers the best value in O Gauge railroading today.

Freight Cars that Can Haul It All

RailKing rolling stock continues M.T.H.'s commitment to variety, with more than fifty different kinds of freight and non-revenue cars. The RailKing line contains both durable ABS plastic and die-cast metal items, as well as modern and nineteenth-century options. Combine all these choices with the dozens of paint schemes available, and it is clear that RailKing rolling stock has something for everyone. All RailKing freight cars feature die-cast trucks, fast-angle wheels and needle-point axles for a smooth rolling ride. Their durable construction ensures that RailKing rolling stock is meant to give years of enjoyment.

Building Your Layout

Half the fun of model railroading is building a layout, and with RailKing RailTown™ buildings, layout expansion is just a few steps away. Constructed from sturdy ABS plastic and brightly painted and detailed, RailTown buildings are sized to be the perfect addition to any O Gauge layout. RailKing traditional accessories, many of which are reproductions of popular accessories from the past, are the perfect solution to your modeling needs. RailKing O Scale accessories are accurately sized 1/4" scale layouts. MTH works to ensure that RailKing O Scale Accessories look and operate prototypically.

RealTrax®

M.T.H. RealTrax track system is designed for ease and convenience of use. The only O Gauge track system that includes a realistic track bed, RealTrax prevents grease from dripping between the rails and leaving an oily mess behind. It is the perfect system for operators who want to set up a temporary layout because it will go virtually anywhere, even on carpet. And without the usual track pins and difficult connections, it is so easy to use even a child can snap the track together in minutes. RealTrax makes it easier than ever to enjoy a model railroad.

M.T.H. offers a full range of ways to control your railroad.

Transformers

Z-4000® For large layouts. 400-watt transformer is the biggest ever to be UL-approved.

Z-750® For smaller layouts. 75 watts.

Z-500® For smaller layouts. 50 watts.

RailKing Remote Control

Gives you freedom to move around while still controlling your train.

Requires: Remote Track Lock-On and Z-750 or Z-500 transformer.
Range: 15 feet.

Z-4000 Remote Control System

Puts 400 watts of power in the palm of your hand! Access all of the features of the Proto-Sound digital sound system from anywhere on your layout. Can control up to three Z-4000 transformers.

Requires: Z-4000 Remote Receiver, Z-4000 transformer.
Range: 30 feet.

Digital Command System (DCS) Remote Control

Leaves track voltage constant and allows you to control multiple engines individually. 32 buttons provide total control over Proto-Sound 2.0 features such as setting scale MPH speeds, passenger station announcements, etc.

Requires: Track Interface Unit (TIU). With Accessory Interface Unit (AIU), you can control track switches and accessories, too.
Range: 50 feet.

For more on Loco-Sound™, Proto-Sound®, and Proto-Sound® 2.0 see page 30.

RailWare Track Planning CD Rom

M.T.H.'s RealTrax® makes it easier than ever to assemble an eye-catching layout, but that still leaves you with the challenge of designing one. On the next few pages you'll find a variety of pre-designed layouts that you can build. Each design includes a required track component list and gives its track diameter and the overall size of the layout's dimensions, so you can choose one that fits your space and taste. Just bring the layout illustration to your local M.T.H. dealer, who will be happy to provide you with all the RealTrax pieces you'll need.

Of course, part of the fun of model railroading is designing your own layout, and M.T.H. provides a tool to help you do that, too. You probably have ideas about what features you would have on your dream layout, but maybe you haven't found a good way to bring your dreams to life. The interactive RR-Track™ software, M.T.H. RealTrax Edition, from R&S Enterprises provides a complete software solution to O Gauge model railroad layout design.

RealTrax track layout software, which is on the CD ROM provided free in every Ready-To-Run set and to MTHRRRC members, turns PCs running Windows® 95 or later or Windows NT (and Macs running VirtualPC®) into a virtual sheet of graph paper, allowing for endless combinations and what-if scenarios. No more templates to struggle with, no messy erasing and scribbling - just pop up the menus on this fully graphical software and design and simple or incredibly complex layout quickly and easily. The software provides in-place object drawing capability as well as menu choice scenery items and accessory libraries to save you the headache of drawing and scaling each building yourself. And when you have designed the perfect layout, the software will even compile a list of needed RealTrax components and accessories for you to print and take to your dealer.

RR-Track™ RealTrax Layout Planning Software
Free with Every RailKing Ready-To-Run Set
and MTHRRRC Members (Also Sold Separately)
Item No. 60-1322

It is much easier to "game out" track and accessory configurations using RR-Track software and your PC than to discover, with 50 track sections already in place, that you mis-measured and your curved passing siding won't fit. This software takes the guess work out of layout design and eliminates the need for emergency table extensions.

 2001 RailKing Car- \$39.95
 2001 Premier Car- \$42.95
 2001 Tinplate Car- \$119.95

Since many model railroaders like all kinds of toy trains, members can purchase one of any of the Club cars. Due to the limited quantities, members are not allowed to buy more than one of any car, including the one that comes with your membership, and cannot have more than one membership in an individual's name.

Allow 4-8 Weeks for Initial Club Material and Book Delivery. Club Cars will be delivered as soon as they become available. Shipping is included in annual membership price.

- Canadian Customers Add \$20.00 (U.S.) shipping to membership price.
 Members outside the U.S. and Canada, please add \$30.00 (U.S.) shipping to annual membership price.
