# Zapfsäulen (Epoche II-III)

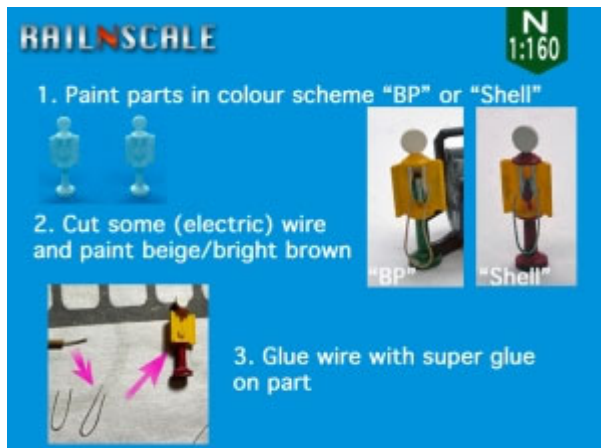

RAILNSCALE

Mar 11

N3199 - 2 Zapfsäulen "Eiserne Jungfrau" (N 1:160)  

### **"Iron Maiden" gas pumps (Era II-III)**

With the increase in car traffic, there was of course a need for gas stations. Initially, a gas station was fairly modest and recognizable by the large fuel columns. The set contains two tank columns in the shape of an "iron maiden".

The model is delivered unpainted.

### **„Eisernen Jungfrau“ Zapfsäulen (Epoche II-III)**

Mit der Zunahme des Autoverkehrs bestand natürlich Bedarf an Tankstellen. Anfangs war eine Tankstelle ziemlich bescheiden und an den großen Kraftstoffsäulen erkennbar. Das Set enthält zwei Zapfsäulen in Form einer „eisernen Jungfrau“.

Das Modell wird unbemalt geliefert.

### **Pompes à essence « vierge de fer » (Époque II-III)**

Avec l'augmentation du trafic automobile, il y avait bien sûr un besoin de stations-service. Au départ, une station-service était assez modeste et reconnaissable aux grandes colonnes de carburant. L'ensemble contient deux colonnes de chars en forme de « vierge de fer ».

Le modèle est livré non peint

### **'IJzeren maagd' benzinepomp (Tijdperk II-III)**

Met de toename van het autoverkeer was er natuurlijk behoefte aan tankstations. Aanvankelijk was een tankstation tamelijk bescheiden en herkenbaar aan de grote tankzuilen. De set bevat twee tankzuilen in de vorm van een 'ijzeren maagd'.

Het model wordt ongeverfd geleverd.

### **MAN 750 HO Ü11 Bahnbus (Era III-IV)**

The MAN 750 HO Ü11 is an intercity bus of the Deutsche Bundesbahn (DB) as a "railway bus". This bus is based on the well-known Metrobus. The front and rear windows are clearly designed differently. The buses have a higher car floor and differ from the Metrobus in the door arrangement. After the Second World War, the DB continued to expand its rail bus network, often as a replacement for closed routes or unprofitable trains.

Various different kits are available. Models are delivered unpainted.

### **MAN 750 HO Ü11 Bahnbus (Epoche III-IV)**

Der MAN 750 HO Ü11 ist ein Überlandbus der Deutschen Bundesbahn (DB) als „Bahnbus“. Dieser Bus basiert auf dem bekannten Metrobus. Front- und Heckscheibe sind deutlich unterschiedlich gestaltet. Die Busse haben einen höheren Wagenboden und unterscheiden sich in der Türanordnung vom Metrobus.

Die DB baute nach dem 2. Weltkrieg ihr Bahnbusnetz weiter aus, oft als Ersatz für stillgelegte Strecken oder unrentable Züge.

Verschiedene unterschiedliche Bausätzen sind lieferbar. Modelle werden unlackiert geliefert.

### **MAN 750 HO Ü11 Bahnbus (Epoque III-IV)**

Le MAN 750 HO Ü11 est un bus interurbain de la Deutsche Bundesbahn (DB) en tant que "bus ferroviaire". Ce bus est basé sur le célèbre Metrobus. Les vitres avant et arrière sont clairement conçues différemment. Les bus ont un plancher de cabine plus élevé et différent du Metrobus par la disposition des portes. Après la Seconde Guerre mondiale, la DB a continué à étendre son réseau de bus ferroviaires, souvent en remplacement d'itinéraires fermés ou de trains non rentables.

Des kits différents sont disponibles. Les modèles sont livrés non peints.

### **MAN 750 HO Ü11 Bahnbus (Tijdperk III-IV)**

De MAN 750 HO Ü11 is een streekbus van de Deutsche Bundesbahn (DB) als "spoorbus". Deze bus is gebaseerd op de bekende Metrobus. De voor- en achterruiten zijn duidelijk anders vormgegeven. De bussen hebben een hogere vloer en verschillen van de Metrobus in de deuropstelling. Na de Tweede Wereldoorlog breidde de DB haar spoorbusnet verder uit, vaak ter vervanging van gesloten trajecten of onrendabele treinen.

Er zijn verschillende sets verkrijgbaar. Modellen worden ongelakt geleverd.
