ON THE COVER

Behind the chain-link fences a steel mill's inner workings are well hidden from the public. Even railroaders barely get a glimpse of what goes on inside from the busy yard tracks. Serving industries big and small requires specialized equipment that's easy to model with WalthersMainline®. The all-new 60' Pullman-Standard Bulkhead Flatcar, featured on page 9, is a unique addition to any HO operation, with its authentic 8'6" bulkheads and other great details. Today's outbound shipment features the Pipe Load Kit available separately from SceneMaster™ (#949-3250), in stock for delivery. Check out the NW2 diesels over on page 9, for all of your switching chores.

Ready for the Road

It's going to be a busy day along this stretch of railroad, where the hostlers have lined up some colorful run-through SD70ACes. In a few hours they'll be flying past with long intermodal freights in tow, but before they can turn a wheel, fuel tanks must be filled, oil checked and cooling water supplies topped off. Today's engine terminals are beehives of action, and modeling them is easy with Walthers! Just announced, the new Modern Diesel Fueling Facility will be a hub of activity for any HO operation - check it out for the first time on page 6 inside!

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

HO Railroad Car Float
Walthers Cornerstone. Great addition to steam- or diesel-era harbor scenes, this detailed HO Car Float kit is typical of equipment used by many railroads to ferry cars to and from isolated areas. Waterline model has no hull, so it fits easily into new or existing scenery. Includes three plastic tracks for easy construction, and the finished model will look great with the Cornerstone Railroad Tug Boat (#933-3153) and Car Float Apron (#933-3068), both sold separately.
