WalthersMainline® RS-2 Diesels Shipping Now!

Moving freight will be easy on your HO railroad with the new [Alco RS-2 diesels](#) from WalthersMainline! Introduced in 1946 as roads big and small began switching to diesel power, some of these versatile prototypes were still going strong into the early 2000s! With its rugged good looks and the proven power of the WalthersProto® drive, it's ideal for main line, branchline, switching or industrial operations. Along with colorful paint and lettering, we've updated the models with the correct air- or water-cooled exhaust stack as appropriate, and there's a new set of curved grab irons ([#910-260](#), also in stock), available separately. Prepainted and lettered models for Monon, BRC, CGW, D&H, GB&W and LV are available now with ESU Sound & DCC for DCC or DC-powered layouts, and Standard DC versions - watch for Undecorated models coming soon! Be aware some roads and unit numbers are already in short supply here in Milwaukee, order now so you don't miss out!

New WalthersMainline 4750 Hoppers are Here!

Your HO railroad can handle a bumper grain crop when you add these WaltherMainline 57' Trinity 4750 3-Bay Covered Hoppers to your HO freight car fleet! Based on cars built by Trinity Industries after purchasing Pullman-Standard in the early 1990s, our models include the clerestory-style roof, late Trinity-style jacking pads and pulling tabs, square corner roof hatches as used in the 1990s, detailed hopper gates with vibrator brackets and much more! Like the prototypes, they're big and colorful in BNSF (circle cross), CNW, GACX, ICG, SOU, SLSF, L&N/Family Lines, NS, and UP® schemes, each available with multiple car numbers while supplies last. An undecorated version is also available for customizing. In stock and shipping now, get your orders in today!

WaltherMainline Announces Newly Tooled Large Dome Tank Cars

Serve all kinds of HO industries with the new Walther's Mainline 36' 10,000-Gallon Insulated Tank Cars with Large Dome and Bolted Jacket! As chemicals became big business, specialized non-pressurized cars like these became more common in passing trains during the late steam- and early diesel-eras. Built tough for service at home or the club, the models feature the distinctive larger domes, see-through platform and ladders, along with a highly detailed body featuring bolt details. Used by a wide range of producing and receiving industries, bold, colorful roadnames in this first run include Hooker Chemicals, Corn Product Company, Columbia Nitrogen, Englehard Minerals & Chemicals, Koppers Chemicals and National Starch & Chemical, each with multiple numbers so it's easy to build a fleet of your favorites. There's also an Undecorated version, ready for customizing. On track for a Summer 2024 arrival, check them out and place your orders now!
